Card Readers

Model 2020AV

- **Hidden teacher track record lock**
- **Built-in microphone**
- **10 second electronic memory**
- **Headphone and mic jacks**
- **AC and battery operated**
- **Full and half speeds**
- **Two Watts RMS of power**
- **Permanently attached AC cord with cord wrap**

These lightweight card readers enhance classroom curriculum and speech-language therapies. A permanent record of a student or client's progress can be made by recording onto a blank magnetic card or plugging a cassette recorder into the auxiliary output. The CardMaster 2020 has the added feature of an electronic memory that can store up to a 10 second message from either the teacher or student tracks. The built-in cord wrap can also be used to hold up to 72 magnetic cards. Preprogrammed Action Phonic Fundamentals cards offer vocal mirroring capability with consonant & vowels, rhyming words and many other programs.
